

Practice 1: Whole-number fluency

Name: _____ Date: _____

Show your regrouping.

1. Calculate $48,736 + 25,489$.

Work space

2. Calculate $90,004 - 37,586$.

Work space

Practice 2: Place value and regrouping

Name: _____ Date: _____

1. Calculate $607,205 + 98,769$.

Work space

2. Calculate $500,000 - 286,457$.

Work space

Practice 3: Add several numbers

Name: _____ Date: _____

1. Find $12,450 + 8,975 + 34,608$.

Work space

2. Find $205,006 + 79,845 + 6,999$.

Work space

Practice 4: Subtract across zeros

Name: _____ Date: _____

1. Calculate $700,000 - 458,276$.

Work space

2. Calculate $1,000,000 - 629,845$.

Work space

Practice 5: Estimate sums and differences

Name: _____ Date: _____ Round each number to the nearest thousand before estimating.

1. Estimate $38,421 + 16,782$.

Work space

2. Estimate $92,615 - 47,338$.

Work space

Practice 6: Check with the inverse

Name: _____ Date: _____ Solve, then use the inverse operation to check.

1. $73,208 + 19,997$

Work space

2. $84,000 - 28,645$

Work space

Practice 7: Missing addends

Name: _____ Date: _____

1. Find the missing number: $\square + 38,475 = 92,610$.

Work space

2. Find the missing number: $57,904 + \square = 100,000$.

Work space

Practice 8: Missing subtrahends and minuends

Name: _____ Date: _____

1. Find $\square$: $\square - 26,789 = 41,306$.

Work space

2. Find $\square$: $86,500 - \square = 29,875$.

Work space

Practice 9: One-step word problems

Name: _____ Date: _____ Write an equation and solve.

1. A museum had 24,685 visitors in June and 18,932 in July. How many visitors came in all?

Work space

2. A warehouse stocked 75,000 boxes and shipped 38,476. How many remained?

Work space

Practice 10: Compare quantities

Name: _____ Date: _____

1. Team A scored 68,450 points and Team B scored 59,875. How many more did Team A score?

Work space

2. A trail is 42,600 m long. A hiker has walked 27,845 m. How far is left?

Work space

Practice 11: Two-step problems

Name: _____ Date: _____

1. A school collected 12,850 cans Monday and 9,675 Tuesday, then donated 15,400. How many remain?

Work space

2. A farmer picked 18,425 apples, 16,780 pears, and 9,995 plums. How many pieces of fruit?

Work space

Practice 12: Two-step reasoning

Name: _____ Date: _____

1. A library had 50,000 books, bought 3,875, and removed 6,420. How many books now?

Work space

2. A theater sold 2,486 tickets Friday and 3,175 Saturday. Its goal was 7,000. How many more are needed?

Work space

Practice 13: Decimal place value

Name: _____ Date: _____ Align decimal points.

1. Calculate $48.75 + 6.908$.

Work space

2. Calculate $92.4 - 17.856$.

Work space

Practice 14: Money decimals

Name: _____ Date: _____

1. A book costs \$12.95 and a game costs \$8.60. What is the total cost?

Work space

2. You pay \$20.00 for items costing \$13.78. What change do you receive?

Work space

Practice 15: Decimal measurement

Name: _____ Date: _____

1. A ribbon is 3.75 m and another is 2.608 m. Find the total length.

Work space

2. A board is 8.5 ft. After cutting 2.875 ft, how much remains?

Work space

Practice 16: Fractions with like denominators

Name: _____ Date: _____ Simplify when possible.

1. Calculate $\frac{3}{8} + \frac{2}{8}$.

Work space

2. Calculate $\frac{11}{12} - \frac{5}{12}$.

Work space

Practice 17: Mixed numbers

Name: _____ Date: _____

1. Calculate $2\frac{3}{5} + 1\frac{4}{5}$.

Work space

2. Calculate $5\frac{1}{6} - 2\frac{5}{6}$.

Work space

Practice 18: Choose the operation

Name: _____ Date: _____ Explain why you chose addition or subtraction.

1. Maya saved \$24.50, then received \$15.75 as a gift. How much does she have?

Work space

2. A tank holds 60.0 L and contains 37.65 L. How many liters can still be added?

Work space

Practice 19: Error analysis

Name: _____ Date: _____ Find and correct the error. Show a check.

1. Sam says $4,305 + 2,798 = 6,993$. Is Sam correct?

Work space

2. Lee says $10.00 - 3.46 = 7.64$. Is Lee correct?

Work space

Practice 20: Mixed review

Name: _____ Date: _____

1. Calculate $305,608 - 127,954 + 8,765$.

Work space

2. A trip is 245.6 miles. The first day covers 98.75 miles and the second 76.8 miles. How many miles remain?

Work space
